

Memorandum of Understanding

Between

SCHOOL OF OPTOMETRY & OPHTHALMOLOGY, WENZHOU MEDICAL COLLEGE, CHINA

FACULTY OF MEDICINE, CHIANGMAI UNIVERSITY, THAILAND

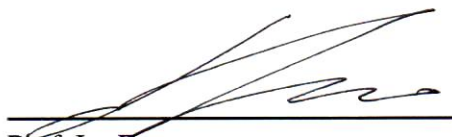

This memorandum of understanding (MOU) as follows has been agreed upon by School of Optometry & Ophthalmology, Wenzhou Medical College, herein after referred as Party A, and Faculty of Medicine, Chiang Mai University, herein after referred as Party B.

- 1、 Both parties hold the general aspiration to set up a relationship of friendship and cooperation on the principle of equality and mutual benefit.
- 2、 Both parties would like to explore opportunities to develop the programs as follows:
 - (1) Student exchange: Based on mutual understanding of the two parties, Party A, as leadership in higher education on optometry & ophthalmology in China, would offer the opportunities for students from Party B to take further study or clinical training according to the requirements of Party B. Party B, one of the leading medical faculty in Thailand, would also offer opportunities for students from Party A to take study or rotation at Chiang Mai.
 - (2) Research cooperation: The two parties would like to explore opportunities of research cooperation in the fields both sides are interested in. Both parties would either plan joint research projects or share facilities and resource according to each party's advantage and technical platform.
 - (3) Curriculum communication: Party A is willing to assist Party B in its optometry & ophthalmology education, offering curriculum syllabus and related materials. Party A opens the chance to Party B for further communication about establishing

materials. Party A opens the chance to Party B for further communication about establishing and developing optometry & ophthalmology education .

- 3、 Both parties would make further understanding of each other and study on the feasibility of the programs above. Detailed addendums on specific cooperative programs shall be signed by representatives of both parties after negotiation.
