Dear ASEA-UNINET National and University Coordinators,

On behalf of Prof. Dr. Gabriele Kotsis, National Coordinator of Austria, we at the ASEA-UNINET Network Office would like to inform you that the **ASEA-UNINET Project Call 2023-2024** (implementation period Oct 1, 2023 to Sep 30, 2024) has been opened. The call will remain open up to, and including, April 20, 2023. **We kindly ask you to disseminate information on the call to the ASEA-UNINET member universities in your home country and institution. THANK YOU!**

Information on the ASEA-UNINET Project Call 2023-2024:

### What is an ASEA-UNINET project ?

A project within ASEA-UNINET is a research and/or a teaching cooperation between at least 1 **Austrian** and at least 1 **ASEAN / Pakistani** [ASEA-UNINET Member University](#) (including the [ASEA-UNINET Candidate Members](#)). Several ASEA-UNINET (Candidate) Member Universities from these member countries are welcome to participate in one project.

### What can be funded?

In particular, the **transcontinental mobilities** of the scientists participating in the project can be funded. These are the travel expenses (funded only for Scientists from Austria) to and/or the living expenses in the partner country (funded for Scientists from Austria AND from ASEAN member countries/Pakistan). Between one and around six mobilities may be funded as part of one project. One mobility may last between a few days and a maximum of 3 months.

**Further information:**

You may find further information as well as the **ASEA-UNINET application guidelines** (e.g., what can be funded and how much) can be found [here](#).

**How should scientists proceed, if they are interested in a joint project with an Austrian ASEA-UNINET member university:**

**First step:** Find a suitable project partner at an Austrian ASEA-UNINET Member University. It should be noted that the ASEA-UNINET Network Office CANNOT assist with this search. If you do not know a suitable project partner, please contact the [Coordinator of this Austrian ASEA-UNINET Member University](#).

**Second step:** Create a joint research or teaching project with the Austrian partner.

**Third step:** The project proposal has to be submitted (by April 20, 2023). Attention: **The application is to be submitted exclusively by the Austrian partner** (usually the Austrian project leader).

The approval process is multi-stage and takes several months. The Austrian partner will inform you if the project will be funded.

If you have any questions regarding this call, please be in touch with my Network Office colleague, [Ms. Barbara Karahan](#).

Best regards,

**Christoph Niederhauser, MSc**
