

การใช้งานโปรแกรม Turnitin for Student

**Medical Library
Faculty of Medicine,
Chiang Mai University**

turnitin® คืออะไร?

- เครื่องมือที่ใช้ตรวจสอบการคัดลอกผลงานการเขียนทางวิชาการที่เป็นสิ่งพิมพ์ออนไลน์ โดยการส่งข้อมูลหรือบทความเข้าสู่ระบบ แล้วระบบจะทำการเปรียบเทียบ เพื่อตรวจสอบข้อความซ้ำกับแหล่งข้อมูลที่รองรับในระบบ ใช้หลักการเทียบซ้ำคำต่อคำ (Word by word) ซึ่งระบบแสดงผลการตรวจที่ง่ายต่อการแปลผลและนำไปใช้งาน เรียกว่า รายงานต้นฉบับ (Originally report)
- พร้อมทั้งชี้แหล่งข้อมูลที่ปรากฏซ้ำ และแสดงรายการดังกล่าวเป็นแถบสีและระดับเปอร์เซ็นต์การเทียบซ้ำ (Similarity index)

แหล่งข้อมูลที่ใช้ในการตรวจสอบผลงาน

- **Internet source** - ข้อมูลมากกว่า 30 หมื่นล้านหน้า ที่เผยแพร่ทั้งปัจจุบันและย้อนหลังบนอินเทอร์เน็ตที่สามารถเข้าถึงได้
- **Publication** - ผลงานที่ตีพิมพ์เผยแพร่เป็นกลุ่มสิ่งพิมพ์ต่อเนื่องเช่น วารสาร นิตยสาร เป็นต้น และฐานข้อมูลสิ่งพิมพ์ (published works) จากทั่วโลก
- **Student papers** - ผลงานที่ถูกส่งและจัดเก็บในฐานข้อมูลของ Turnitin ก่อน

Browser

ที่รองรับการใช้โปรแกรม **Turnitin**

- Firefox v.15++
- Chrome v.23++
- Internet Explorer v.9++
- Safari v.5++

turnitin[®]

การใช้งาน Turnitin ในสถานะนักศึกษา (Student)

การใช้งานในสถานะนักศึกษา (student)

ขั้นตอนการใช้งาน Turnitin (Students)

1. การใช้งานครั้งแรกให้ลงทะเบียน โดยการสมัครบัญชีผู้ใช้ประเภท Student ก่อน
** ส่วนการใช้งานครั้งต่อไป ใช้ e-mail และ password ที่กำหนดเมื่อตอนลงทะเบียนในการเข้าใช้
2. ส่งผลงาน หรือบทความเข้าไปตรวจสอบกับระบบ (Submit Paper)
3. ดูผลการตรวจสอบและนำผลการตรวจให้อาจารย์ที่ปรึกษาพิจารณา

*** การใช้งานสถานะ Student จะต้องมี Class ID และ Enrollment password ประจำวิชา ที่ต้องการเข้าร่วม โดยจะได้รับจากอาจารย์ผู้สอนประจำวิชา

ข้อควรระวัง !!!

ไฟล์ที่จะ upload ได้ ต้องขนาดไม่เกิน **100 MB** จำนวนคำ **20 คำขึ้นไป**

จำนวนหน้าไม่เกิน **800 หน้า** เป็นไฟล์ Microsoft Word, Excel, PowerPoint, WordPerfect, PostScript, PDF, HTML, RTF, OpenOffice (ODT), Hangul (HWP), Google Docs, and plain text **และต้องไม่ติด password หรือเป็น hidden file**

- ไฟล์ภาษาไทย ควรบันทึกเป็นนามสกุลไฟล์ RTF ใน Microsoft word หรือบันทึกเป็นรูปแบบไฟล์ PDF โดยแนะนำให้ใช้โปรแกรมของ Adobe สำหรับแปลงไฟล์
- ไฟล์ PDF ต้องไม่ล็อกเป็นแบบ Read Only
- **ไม่ใช่**ไฟล์รูปภาพ ไม่ใช่ไฟล์สแกน หากต้องการตรวจ จะต้องใช้โปรแกรม OCR มาทำการแปลงไฟล์ภาพให้เป็นตัวอักษร
- ระยะเวลาในการประมวลผลขึ้นอยู่กับจำนวนหน้า และรายละเอียดต่างๆ ซึ่งไฟล์ภาษาไทยอาจใช้ระยะเวลาในการประมวลผลนานกว่าปกติ

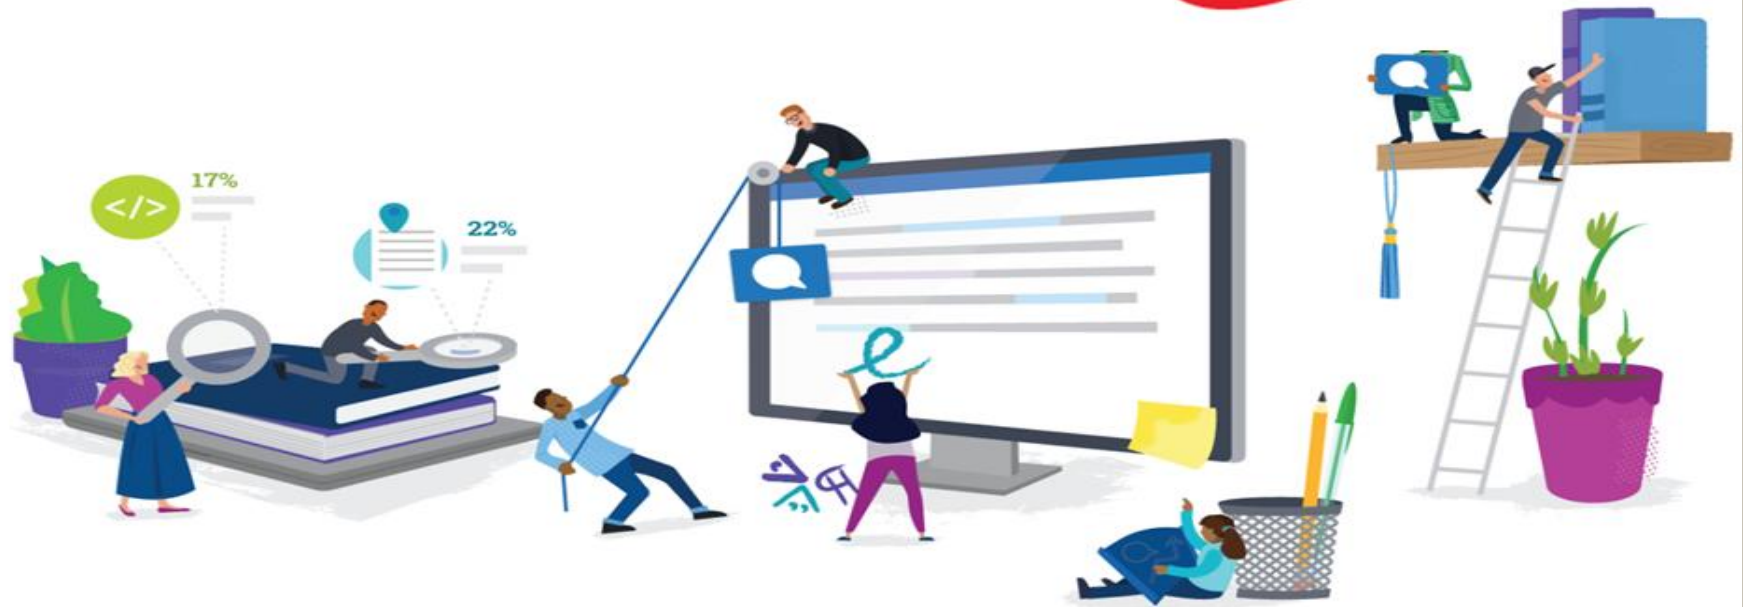

เงื่อนไขการส่งเอกสารเข้าสู่ระบบ

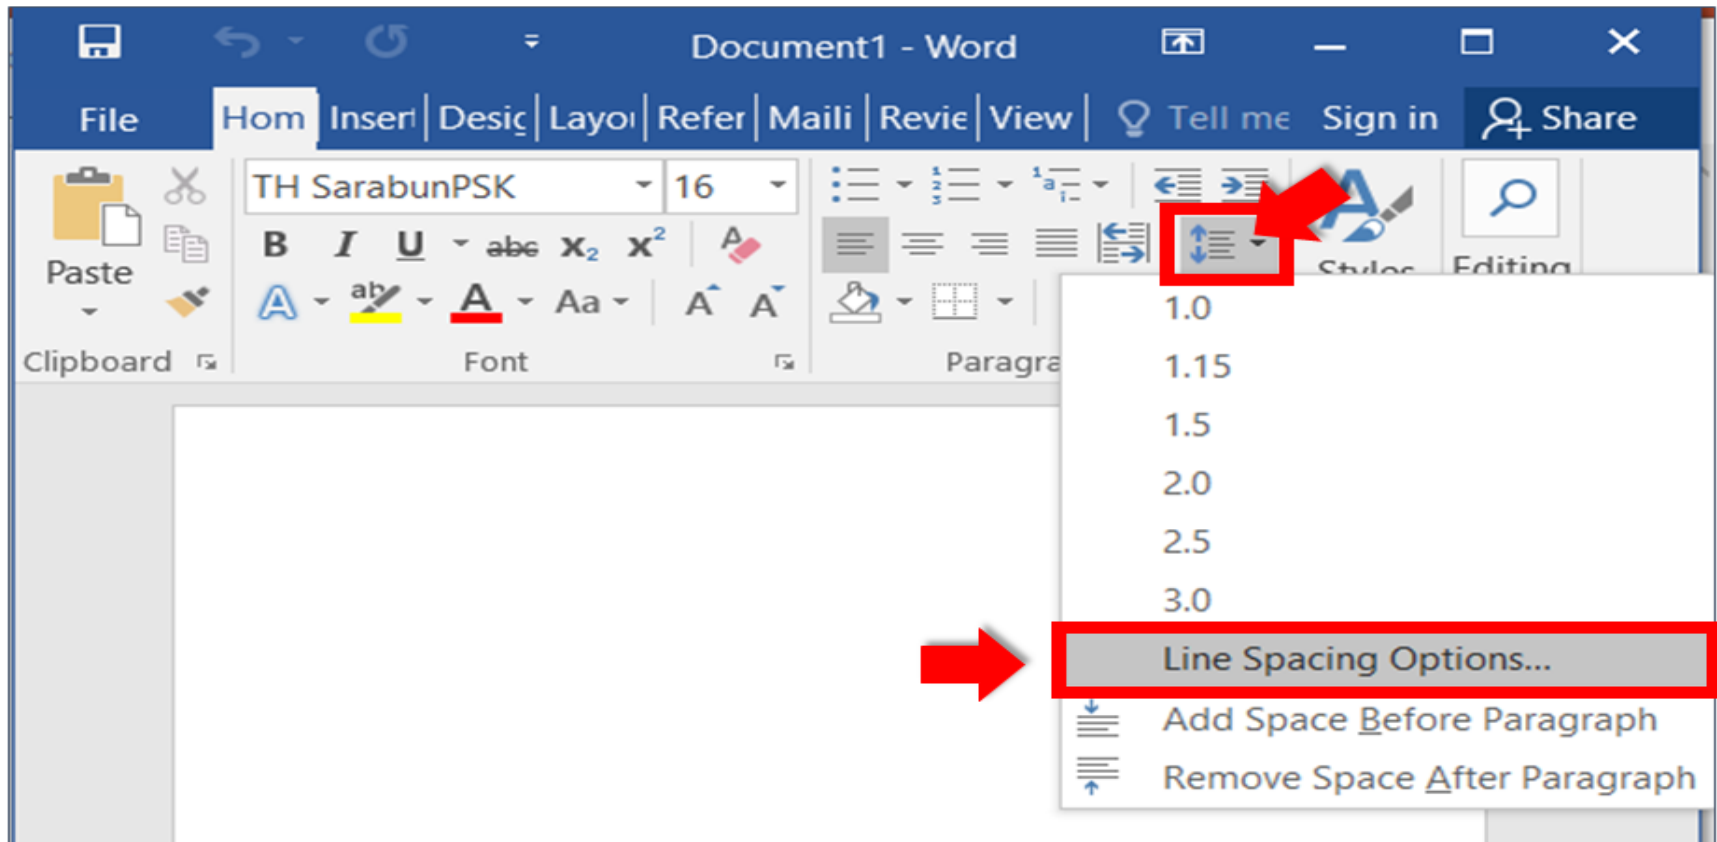

- ✓ เอกสารต้องมีขนาดไม่เกิน 100 MB
- ✓ เอกสารต้องมีอย่างน้อย 20 คำ
- ✓ เอกสารต้องไม่เกิน 400 หน้า
- ✓ รองรับการตรวจข้อความทุกชนิด ยกเว้นการตรวจรูปภาพ เช่น ไม่สามารถตรวจ PDF ที่เป็น image ได้
- ✓ ต้องตั้งค่าระยะห่างระหว่างบรรทัดของเอกสารให้อยู่ในรูปแบบ Single Line Spacing เท่านั้น
- ✓ ระบบรองรับไฟล์ Microsoft Word, Excel, PowerPoint, WordPerfect, PostScript, PDF, HTML, RTF, OpenOffice (ODT), Hangul (HWP), Google Docs, and plain text

การเตรียมเอกสารก่อนส่งตรวจ

turnitin®

วิธีการตั้งค่าระยะห่างระหว่างบรรทัด

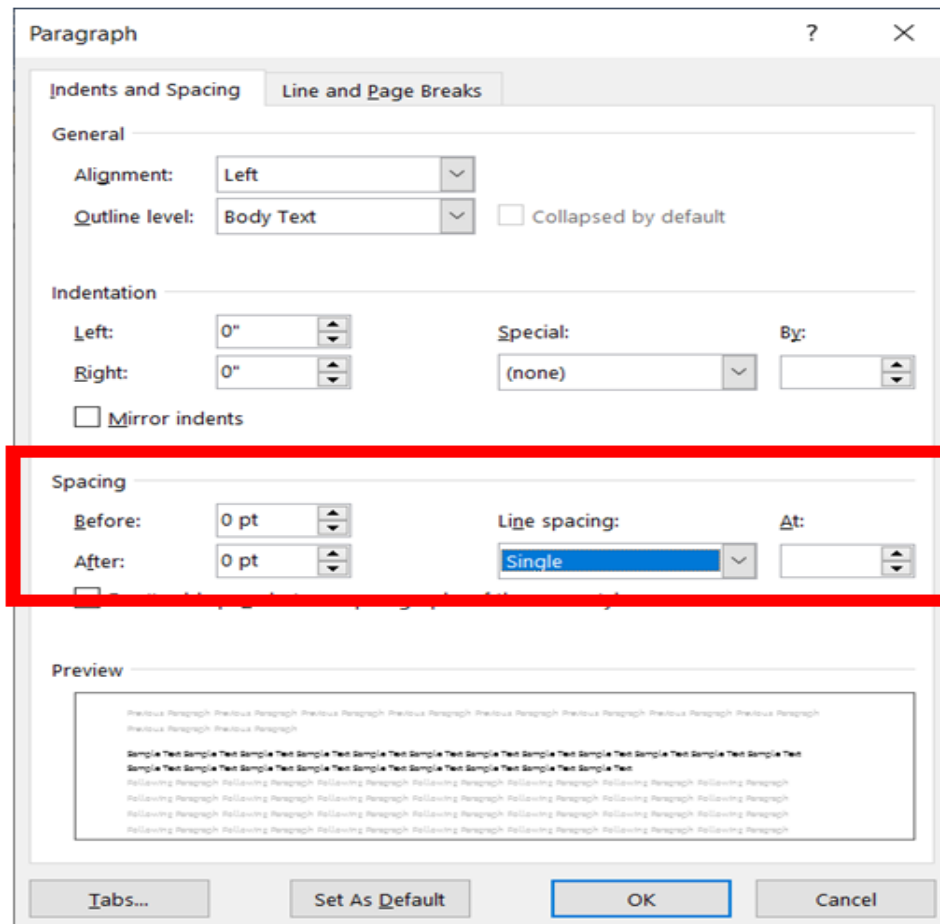

1. เลือกที่เมนู Line and Paragraph Spacing
2. คลิกเลือก Line Spacing Options...

3. เปลี่ยน Before และ After เป็น 0 pt.

4. เลือก Line Spacing เป็นแบบ Single

5. คลิก OK แล้วบันทึกไฟล์ไว้สำหรับส่งตรวจในระบบต่อไป

ตัวอย่างการ Submit paper แบบ Single file upload

The hidden problems of illegal abortions in Thailand

Chanok Masaengta, M.D., Roger W. Roebur, M.D., Nantana Maratkit, MPH,
and Somsak Chantakorn, M.D.
Department of Obstetrics and Gynecology, Chulalongkorn University, Faculty of Medicine,
Buddhachulalongkornrajavidyalaya University, Bangkok, Thailand, U.S.A.

High rates of unskilled pregnancy and induced abortion have reported among young women in Thailand. Complications from illegal and low standard abortion are a serious public health problem in the country. Abortion is considered to be a life-threatening and life-costing as a woman may lose an embryo in the uterus. The current abortion law in Thailand requires the abortion to legal, except when performed by a medical practitioner in a government-owned hospital when the pregnant woman has a medical condition or a serious danger to her health or a serious illness such as a severe mental disorder. The people feel that the abortion law should be amended because the current law causes morbidity or an abortion over the past decade. The study over legal status of the law in all areas. Thailand needs a multi-disciplinary approach to reduce and prevent the number of unplanned pregnancies and unsafe abortion, with special attention paid to women in remote areas. *Chiang Mai Medical Journal 2014;53(4):187-91.*

Keywords: abortion, Thailand, Low standard abortion, unplanned pregnancy

Introduction

The second revolution of 2007 dual forces found in a Buddhist temple in Bangkok and a group of people of the hidden position of illegal abortion in Thailand. The women were mostly from the rural areas and illegal abortion was often in the city. Complications from illegal and low standard abortion are a serious public health problem in the country. It is not clear every eight women worldwide from medical complications as a consequence of unsafe abortion. These women were likely using unsafe abortion, being in need of one and/or a life or an family or social support to help with their unplanned and unwanted pregnancy. They might have been raped and did not want medical attention or psychological support. They possibly had faith or a religious belief for causing a standard and safe abortion. However, the absence of well-trained personnel of a pregnancy, could be diagnosed and probably unworkable. On the other hand, their women could not be provided emergency services in a timely manner, to terminate the pregnancy. Many cases of these women have died from medical complications as a result of

Review article

The hidden problems of illegal abortions in Thailand

Chanok Masaengta, B.Sc., Roger W. Beckett, M.D.,* Norman Yorlaker, MPH,
and Nomsak Charoensri, M.D.
Department of Obstetrics and Gynecology, Chiang Mai University, 58 Department of Global Health,
Indiana School of Public Health, Atlanta, GA, USA

High rates of unplanned pregnancies and induced abortion have remained constant across in Thailand. Complications of illegal abortion are a leading cause of maternal morbidity and mortality in the country. However, it is essential to be able to determine and track causes as a necessary first step in addressing the problem. The current evidence on the burden and causes of illegal abortion is limited. This review article examines the hidden problems of illegal abortions in Thailand. The authors review the current evidence on the burden and causes of illegal abortions in Thailand. The authors review the current evidence on the burden and causes of illegal abortions in Thailand. The authors review the current evidence on the burden and causes of illegal abortions in Thailand.

Keywords: abortion, Thailand, Law, Induced abortion, unplanned pregnancy

Introduction

The recent evaluation of 2002-2004 data from a national population-based survey of reproductive health and family planning in Thailand revealed that the most people of the hidden problem of illegal abortions in Thailand. The authors review the current evidence on the burden and causes of illegal abortions in Thailand. The authors review the current evidence on the burden and causes of illegal abortions in Thailand. The authors review the current evidence on the burden and causes of illegal abortions in Thailand.

The hidden problems of illegal abortions in Thailand

Orawee Chinthakanan, M.D.,¹ Roger W. Roachat, M.D.,² Nuntana Morakote, MPH,¹

¹⁵d Somsak Chaovisitree, M.D.¹

¹²¹Department of Obstetrics and Gynecology, Chiang Mai University, ²Hubert Department of Global Health, Rollins School of Public Health, Atlanta, GA, USA

High rates of unplanned pregnancy and induced abortion were reported among young women in Thailand. Complications from illegal and low standard abortion are a current major health problem in the country. Abortion is considered to be a life-destroying act that counts as a serious bap (sin or demerit) in Thai culture. The current abortion law in Thailand stipulates that abortion is illegal except when performed by a medical practitioner in circumstances considered necessary when the pregnancy endangers the woman's health or conception had occurred during a sexual offense such as rape or incest. However, most Thai people feel that the abortion law should be amended because Thai society has changed radically in its attitudes over the past decade. The debate over legal reform of this law is still active. Thailand needs a multi-disciplinary approach to reduce and prevent the number of unplanned pregnancies and unsafe abortions, with special attention paid to the most vulnerable group of women. *Chiang Mai Medical Journal* 2014;53(4):187-91.

Keywords: abortion, Thailand, Law, legalized abortion, unplanned pregnancy

Introduction

The recent revelation of 2,002 dead fetuses found in a Buddhist temple in Bangkok enlightened people of the hidden problem of illegal abortion in Thailand. The remains were widely believed to have come from many illegal abortions to help with their unplanned and unwanted pregnancy. They might have been raped and did not seek medical attention or experienced an unexpected pregnancy from failure to use contraception. They possibly had little or no

The hidden problems of illegal abortions in Thailand

Orawee Chinthakanan, M.D.,¹ Roger W. Rochat, M.D.,² Nuntana Morakote, MPH,¹ Somsak Chaovisitree, M.D.¹

¹Department of Obstetrics and Gynecology, Chiang Mai University, ²Hubert Department of Global Health, Rollins School of Public Health, Atlanta, GA, USA

High rates of unplanned pregnancy and induced abortion were reported among young women in Thailand. Complications from illegal and low standard abortion are a current major health problem in the country. Abortion is considered to be a life-destroying act that counts as a serious bap (sin or demerit) in Thai culture. The current abortion law in Thailand stipulates that abortion is illegal except when performed by a medical practitioner in circumstances considered necessary when the pregnancy endangers the woman's health or conception had occurred during a sexual offense such as rape or incest. However, most Thai people feel that the abortion law should be amended because Thai society has changed radically in its attitudes over the past decade. The debate over legal reform of this law is still active. Thailand needs a multi-disciplinary approach to reduce and prevent the number of unplanned pregnancies and unsafe abortions, with special attention paid to the most vulnerable group of women. *Chiang Mai Medical Journal* 2014;53(4):187-91.

Introduction

The recent revelation of 2,002 dead fetuses found in a Buddhist temple in Bangkok enlightened people of the hidden problem of illegal abortion in Thailand. The remains were widely believed to have come from many illegal abortion clinics in the city⁽¹⁾. Complications from illegal and low standard abortions are a current major health problem in the country. A woman dies every eight minutes worldwide from medical complications as a consequence of unsafe abortion⁽²⁾. These victims were likely young people, perhaps teenagers, living in rural areas and having little or no family or social support to help with their unplanned and unwanted pregnancy. They might have been raped and did not seek medical attention or experienced an unexpected pregnancy from failure to use contraception. They possibly had little or no money for receiving a standard and safe abortion. Therefore, the attempt to self-induce termination of a pregnancy would be dangerous and probably unsuccessful. On the other hand, these women might seek an unqualified surgeon, who is relatively inexpensive, to terminate the pregnancy. Sadly, many of these women have died from medical complications as a result of

Introduction

The recent introduction of IUDs that allows women to decide whether to have a child is a significant step towards reproductive freedom in Thailand. The women were not allowed to have a child unless they were married and had a job. This was a significant step towards reproductive freedom in Thailand. The women were not allowed to have a child unless they were married and had a job. This was a significant step towards reproductive freedom in Thailand.

The hidden problems of illegal abortions in Thailand

Orawee Chinthakanan, M.D.,¹ Roger W. Rochat, M.D.,² Nuntana Morakote, MPH,¹ and Somsak Chaovitsere, M.D.¹

¹Department of Obstetrics and Gynecology, Chiang Mai University, ²Hubert Department of Global Health, Rollins School of Public Health, Atlanta, GA, USA

High rates of unplanned pregnancy and induced abortion were reported among young women in Thailand. Complications from illegal and low standard abortion are a current major health problem in the country. Abortion is considered to be a life-destroying act that counts as a serious bap (sin or demerit) in Thai culture. The current abortion law in Thailand stipulates that abortion is illegal except when performed by a medical practitioner in circumstances considered necessary when the pregnancy endangers the woman's health or conception had occurred during a sexual offense such as rape or incest. However, most Thai people feel that the abortion law should be amended because Thai society has changed radically in its attitudes over the past decade. The debate over legal reform of this law is still active. Thailand needs a multi-disciplinary approach to reduce and prevent the number of unplanned pregnancies and unsafe abortions, with special attention paid to the most vulnerable group of women. *Chiang Mai Medical Journal* 2014;53(4):187-91.

Introduction

The recent revelation of 2,002 dead fetuses found in a Buddhist temple in Bangkok enlightened people of the hidden problem of illegal abortion in Thailand. The remains were widely believed to have come from many illegal abortion clinics in the city^[1]. Complications from illegal and low standard abortions are a current major health problem in the country. A woman dies every eight minutes worldwide from medi-

port to help with their unplanned and unwanted pregnancy. They might have been raped and did not seek medical attention or experienced an unexpected pregnancy from failure to use contraception. They possibly had little or no money for receiving a standard and safe abortion. Therefore, the attempt to self-induce termination of a pregnancy would be dangerous and probably unsuccessful. On the other hand,

T H E E N D

The image shows six light-colored wooden blocks arranged in a single row on a wooden plank surface. Each block has a black letter printed on its front face. The letters, from left to right, are 'T', 'H', 'E', a space, 'E', 'N', and 'D'. The background is a soft-focus outdoor scene with a bright light source, possibly the sun, creating a bokeh effect. The entire image is framed by a thin white border.
